EDUCATION

STME, Narsee Monjee Institute of Management Studies   June 2024
B.Tech. Computer Science   *Current GPA: 3.07/4.0*

SKILLS

Languages: C/C++, Java, JavaScript/TypeScript, HTML/CSS

Tools: Git/GitHub, MATLAB, Firebase, MongoDB, Figma, SQL, JWT, Docker, Postman, AWS S3

Frameworks: ReactJS, NextJS, Node.js, ExpressJS, Material-UI, RESTApi

PROJECTS

NightLife - Event Platform   Jan 2025 - Present
NextJS, TailwindCSS, Shadcn, AWS S3, NeonDB, Prisma   GitHub   Live

- Developed a full-stack web application enabling users to discover and access nightlife events and club experiences
- Achieved 99.9% uptime with real-time registration system using Prisma ORM and NeonDB
- Optimized image loading speed by 40% through AWS S3 integration and caching
- Reduced bounce rate by 35% using responsive design with TailwindCSS and Shadcn UI

NightLife - Organizer Dashboard   Jan 2025 - Present
NextJS, TailwindCSS, Shadcn, AWS S3, NeonDB, Prisma, Auth.js   GitHub   Live

- Built secure event management platform with Auth.js, enabling nightclub organizers to manage events and guestlists
- Designed real-time dashboard using Prisma ORM for efficient event and guest tracking
- Reduced operational costs by 70% through serverless architecture (NeonDB, AWS S3)
- Implemented shared database architecture using Prisma and NeonDB for synchronized data access across platforms

EXPERIENCE

Fyle   March 2025 – Present
Engineering Intern

- Migrated two major pages and several reusable components from AngularJS to modern Angular, ensuring full feature parity and seamless user experience.
- Refactored legacy API integrations to the new Platform APIs across all Fyle products (Outlook Add-in, Chrome Extension, Mobile, and Web app), achieving a 70% reduction in API calls and enhancing overall system performance.
- Collaborated with cross-functional teams—including Product and Design, to swiftly resolve user-facing bugs and deliver new features, ensuring a seamless user experience.

Con10t-Labs   March 2023 – July 2023
Quality Assurance Intern

- Created detailed, comprehensive, and well-structured test plans and test cases
- As Founding Member of the Quality Assurance team, I was responsible for creating guidelines for Quality Standards
- Designed, developed and executed automation scripts using open-source codes
